

Environmental Policy

Sandy Cricket Club are committed to minimising any adverse impact on the environment from our activities. Sandy Cricket Club will operate in compliance with all relevant environmental legislation and we will strive to use environmental best practice in all we do.

Sandy Cricket Club is committed to minimising any adverse effects on the environment from its activities and will:

- Reduce waste through re-use and recycling.
- Promote environmental awareness throughout the club.
- Endeavour to prevent pollution of land, air and water from the club's activities.
- Avoid unnecessary use of hazardous materials.
- Encourage club members to car share, therefore reducing the number of cars being used to travel to/from club matches, aiming to reduce traffic pollution.
- Work with the owners (Sandy Town Council) of the Jenkins Sports Pavilion and Sunderland Road Recreation Ground, to help reduce the impact these premises/grounds (and the Club's activities on them) may have on the environment.
